INTRODUCTION

This is the result of weeks of research which was undertaken in the spring of 1986. It was for a portion of a history of Leslie, Michigan in which I attempted to locate names of those individuals from Leslie which had served during the Civil War.

During the research I scanned the RECORDS OF SERVICE for these names. It was then that I realized the value of an index for those doing genealogical as well as other types of research.

The RECORDS OF SERVICE contains over 45,000 names of which I have extracted approximately 1470 names of those from Ingham County who served.

Some problems have taken place while gathering the names which you should be made aware of. First, there appears to have been a place in Calhoun County, Michigan also known as Leroy, Same as the township in northeastern Ingham County. I have tried to only include those from Leroy, Ingham County. Also, a person may have been a resident of somewhere else and enlisted during an enlistment drive at a spot giving that as his place of residence. For example a man from Mason enlisting in Lansing may have been listed as being a resident of Lansing.

Information contained on individual records varies from one entry to another, but an example of an entry is as follows.

Dakin, Hubbard H. 21

Ingham County

Co. A 1st Cavl

Entered August 13, 1861 at Detroit.

Taken prisoner at Wolf's Run Shoals Jan 18, 1863

Returned to Regiment at Fairfax Va. May 18, 1863

Transferred to Co. F March 6, 1864

Taken prisoner at Trevillian Station Va. June 11, 1864.

In prison at Andersonville Ga.

Released at Venus Point, Georgia November 21, 1864.

With this information one could submit to the National Archives for his entire service record. That record gives valuable information about the individual and his actions during the Civil War.

If while attempting to locate an individual in this book, you are unable to locate him, please see page 43, it contains names either missed or listed in another publication.

GOOD LUCK IN YOUR RESEARCH !

HISTORICAL NOTES

Information in regards to historical matters, and statistics may be of some interest and assistance to those doing research.

I have included some pertinent information contained in the book *MICHIGAN IN THE WAR* .

"It became necessary for the Governor to appoint commissioners to superintend the draft while the sheriffs and clerks of counties were constituted recruiting officers."

In Ingham County, Michigan the Governor appointed Lemuel Woodhouse as the commissioner of the draft.

In Ingham County, a draft of men recorded the following information. Of the 65 men drafted, 36 were delivered to the barracks. Of these drafted some had others whom they would pay to serve for them as substitute.

It appears that from the information within the *RECORDS OF SERVICE* that the average age of the individuals is 24 years of age.
