### Bills and Payments

Bills are sent monthly and are payable when received. They cover your telephone service for one month in advance and toll charges up to and including the 20th day of the preceding month. All bills paid after the 20th are to be paid at the gross rate. Payments made after the 25th may not be credited on your next month bill as posting to bills are started at this time. Bills not paid by the end of the month are subject to denial of service **WITHOUT FURTHER NOTICE**. After service is denied there is a charge of \$1.50 to restore service. Failure to receive a bill does not exempt you.

Itemization of your toll calls are on the back of your postcard bill. The first (red) number is the date, followed by the town number of your call, then the amount. There are two of these columns.

The Burroughs bookkeeping system we use does not write names. Therefore we give each town a number and on your toll bills these numbers will be used to indicate the town you talk to. You will, no doubt, occasionally talk to some remote town that we have no number for, and therefore in such cases there will be no number shown on the bill, but these occasions will

## GENERAL INFORMATION ABOUT THE MOORE TELEPHONE SYSTEM

### Tool Lines

Moore Telephone System owns its toll lines to all towns in Tuscola county and also reaches all adjoining counties: Huron, Sanilac, Lapeer and Saginaw and the City of Saginaw. Through its connection with the Michigan Bell Telephone Company, service can be given to all parts of the civilized world.

### Maintenance and Trouble Work

We are anxious to give good service, but occasionally subscribers have trouble with their phones. Please report such trouble promptly to the operator and we will do our best to fix it promptly. If you do not get prompt service on such repairs, please call, or drop a postcard and we will see that the matter gets prompt attention. No rebate is given for phones out of service 36 hours or less. Prompt restoration of your service depends on your prompt report of the trouble. Your co-operation is requested, for your benefit and ours.

### Broadcasting Notices

We will broadcast for you an announcement of Special Sales, demonstrations or other events of general interest. All rural subscribers are called, by one of our operators (or your own employee if desired) will make the announcement. All rural subscribers will be called, under this plan, at a charge of \$3.50. Village subscribers also will be called for \$2.00. Both sets of subscribers will be called for \$5.00.

### Do You "Lend" Your Phone?

You buy, and we sell you, telephone service for yourself and your family, or for employees and owners in the case of business phones. When a practice is made of lending your phone to others who are not subscribers you are giving a right that is not yours to give, and we are losing business. Does this seem fair? Many companies, in such cases, insist on putting in pay phones, so that all who call must put a nickel in the phone before getting central. We would not like to have to do this, but it may be necessary in the case of subscribers who disregard this rule repeatedly.

We are here offering an "Extra User Service", which, we hope, will overcome the unsatisfactory practice of sponging your telephone service without having a telephone of your own. We will be glad to have you use our public pay stations at five cents per call of three minutes. Or, if a person having a telephone is willing, we will rent you the right to use his residence telephone in town or country, price \$1.00 per month; or in a place of business, \$1.50 per month.
