WARNING — To Party Line Users

Michigan State law (Number 56 of Public Acts of 1952) makes punishable offenses of certain acts in connection with the use of party line telephone service. The law in part, reads as follows:

"Any person who shall willfully refuse to yield or surrender the use of a party line to another person for the purpose of permitting such other person to report a fire or summon police, medical, or other aid in case of emergency, shall be deemed guilty of a misdemeanor.

Any person who shall ask for or request the use of a party line on pretext that an emergency exists, knowing that no emergency in fact exists, shall be deemed guilty of a misdemeanor.

'Emergency' as used in this section means any situation in which property or human life are in jeopardy and prompt summoning of aid is essential."

MOORE TELEPHONE SYSTEM, INC.

Classified Telephone Directory

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. Additional listings under other classifications may be obtained for a nominal charge by making written application, however, to the Company in advance. For Company accounting reasons only, such additional listings are identified in this section by an (*) shown at the left of the extra listing telephone number.

The telephone company and the publishers of this directory assume no liability whatever for damages arising from errors or omissions in making up or printing this book. The utmost care is used, however, in listing all subscribers correctly.

All subscribers (both residence and business) are listed alphabetically on the preceding white pages. The following pages (yellow) list only those who pay a business rate.

USEFUL TELEPHONE INFORMATION

"PARTY LINE COURTESY" PAYS

Since telephone equipment is scarce, many of our customers are using party-line service temporarily.

The best party-line service for all depends on courteous use of the line.

If you're a party-line user, you can do your part. Listen a moment to make sure the line is clear before you call—try not to interrupt your neighbor's conversation. Hang up quietly if the line is in use. Keep your conversations short so others can use the line, too.

USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in this directory. Every operator and all telephone facilities are needed to handle today's huge volume of calls.

So please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You can get your call through faster by referring to this directory and calling by number.

Your cooperation is appreciated.

APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

PAYMENT FOR SERVICE

The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 20th day after the date of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within five days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$2.50 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

Card, Mich.

First of all, obtain the correct number from the latest
directory which has been distributed by the telephone
company. Telephone numbers are constantly being
changed, and, in fact, an old, familiar number which
you may have been calling for years might no longer
exist.

Next, remove the receiver with care. "Jiggling" the
hook could conceivably give you a wrong number.

Then Listen for the Dial Tone!

No other instruction is more important than this, be-
cause, unless you hear the steady, humming sound in
your receiver before you begin to dial the number,
your telephone is not connected with the central office
equipment, and you will be unable to contact any-
one. The dial tone is the "Number Please" of dial
equipment.

If you do not hear the dial tone, replace your re-
ceiver for several seconds. Then listen again for
the tone.

After you hear the dial tone, you may begin the
dialing operations immediately without replacing the
receiver.

How to Dial a Number:

Suppose, for example, you wish to call the number
OS 3-9000. First, place your finger in the dial open-
ing which is directly above the letter O. Turn the dial
clockwise with your finger until you touch the
finger stop. Then remove your finger and allow the
dial to return to its normal position. Follow the same
procedure for the letter S then for the 3 and the
rest of the digits in the number.

When you have finished dialing the complete num-
ber, you should hear either the ringing signal or
the busy signal within a few seconds. The ringing
signal is a low, intermittent, purring sound, whereas
the busy signal is a higher-pitched "buzz-buzz-buzz."

If you hear neither the ringing signal or the busy
signal, it's quite possible that you have made a
mistake in dialing. Replace your receiver, listen
again for the dial tone, and repeat the dialing pro-
cedure.

If you make a mistake while dialing, replace your
receiver immediately and wait for the equipment
to "erase" your mistake before listening for the dial
tone again. Your error can not be corrected unless
you replace your receiver for a few seconds.

Card, Mich.

Party line subscribers and extension users: When
you call from a party line or any line having an
extension telephone, listen first, before dialing, to
see if the line is in use. If you do not hear a con-
versation OR the dial tone, ask if the line is being
used.

If you hear dialing "clicks" when you lift your re-
ceiver, they indicate that you have interfered with
someone else's dialing. It is common courtesy to
remain on the line until the other party has finished
dialing in order to inform him that it will be neces-
sary for him to redial his number. Then hang up
and permit him to dial again.

Calls To A Party On Your Line

If you dial a number and repeatedly receive a
busy signal it is possible that the party you are
calling is on your line.

Calls to another party on your line may be made
by dialing a special code. A Card has been furnished
for your directory, listing the parties on your line and
the special code you must dial to get them. You may
also secure a code number by dialing information
and asking for the code number.

When you know the special code for reaching
another party on your line dial it in the usual manner
then hang up your receiver. Your bell will then ring
at intervals; when ringing stops, it is an indication
that the called party has answered. Remove the
receiver and start conversation. If the ringing does
not stop within about one minute, it is probable the
called party is not available. To stop the ringing,
remove the receiver and then replace it.

If you receive a call from someone on your line
you will hear a clicking, this tells you to wait until
the person calling you answers.

When you have finished your conversation, be sure
to replace your receiver carefully. If your receiver
remains off the hook, your line is automatically
"busy" to anyone who tries to call you.

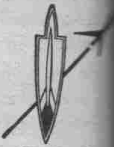

If you are making a series of calls, you must "hang
up" between each call. Otherwise, you will not
hear the dial tone which informs you that the equip-
ment is ready to accept another call.

Please limit the length of your calls. Excessive "hold-
ing time" helps to tie-up and jam the dial equipment,
which prevents the use of the service by your neigh-
bor. Particularly if you are on a party line, we ask
that you limit your local calls, as often as possible,
to five minutes or less.

At Your Service

There is a young lady in our business office whose job it is to make sure your telephone service is satisfactory at all times. She will be glad to answer any questions about your bill or to assist you in other telephone service matters, such as what to do to have your telephone moved, to make a change in class of service, or type of telephone, etc.

Please feel free to come in and have us answer any questions you have concerning your telephone service.

Helpful Tips On Long Distance Calls

1. Call by number—It is faster.
2. Rates are reduced on calls after 6 P.M. and before 4:30 A.M. and all day Sunday. (This does not apply to station-to-station calls 35c and under)
3. When placing station-to-station calls, and you tell the operator a name, be sure to specify residence, office, company, etc., as the case may be, so she will know it is to be a station-to-station call.
4. Write down the telephone number of people you call frequently in the front of your directory. Your calls to them will be easier in the future.

BUSINESS TRANSACTIONS

Application For Service—Application for new service, changes in or additions to existing service or equipment must be made by calling the Business Office, or by calling in person at the Company's Business Office. Subscribers desiring tele-

phone service changed or discontinued should call during these hours.

Bills For Service—Bills are due when rendered; are payable 20 days after date of billing.

A Telephone Credit Card may be obtained by making application at the Bus. Ofc.

DO YOU SPEAK PLEASANTLY?
 Remember, it may be your best friend
 or your best customer, who is telephon-
 ing. Answer him as pleasantly as you
 would if you were face to face.

**STATE SAVINGS BANK
 OF CARO**

Your telephone company has alw
tried to see telephone problems thro
your eyes. It approaches its probl
with the determination that "the c
tomer *must* be pleased," and devel
its service to that end. Particular car
taken, therefore, in selecting teleph
workers. Telephone people want
serve you. Your viewpoint is their c
stant concern.

A vital factor in the highly specialized work of providing dependable, low cost telephone service is that telephone supervisors—foremen, wire chiefs, chief operators, managers—start at the bottom. Every part of your service is managed by men and women whose judgment and decisions are based on experience with the job.
